INVESTMENT PHILOSOPHY - GENERATE ALPHA THROUGH 3M INVESTMENT APPROACH

Market Size

Market size determines size of opportunity. We prefer companies which are targeting large market size to generate exponential returns.

Market Share

We buy the companies which are leaders in their sector as they are best positioned to navigate upturn and downturn of the economy.

Margin of Safety

Price is what you pay. Value is what you get. We buy the companies which are available at reasonable valuations.

INVESTMENT PHILOSOPHY - PROTECT CAPITAL THROUGH PRUDENT RISK MANAGEMENT

Three important risks : Governance, Technology and Business cycle - can be reduced only by Diversification. We invest across market cap, sectors, and companies to reduce company/sector specific risk.

Diversification

We build the portfolio over a period of time. We do not follow Model portfolio approach.

Staggered Investment Approach

We have a disciplined Exit strategy. We sell/reduce due to rebalancing of the portfolio, change in growth assumption of our portfolio company, expensive valuations.

Defined Exit Strategy

WHY AAA IOP PMS?

Protect capital, Create Wealth

3M Investment Approach for stock selection and Diversification with Disciplined Exit Strategy to reduce risk.

Access To Market Leaders

Aims for multi-cap exposure to ~50 Market Leaders across sectors.

Growth Potential

Aims to capture long-term growth with strong balance sheet and high ROCE.

Grounded in Research

Combines top-down and bottom-up research with strong due diligence.

Award winning track record

We have a proven track record of investment in companies yielding multibagger returns.

3 Investment Mantras for 2022

Equity to outperform

Combination of lower real rates, strong corporate earnings growth and structural reforms is favourable for the equity asset class.

Bottom-up approach

Unlike 2021, expect 2022 to be a year of Stock Selection. High quality businesses with strong pricing power, likely to outperform in the rising inflation environment.

Active Investment Management

Be aware of constant surprise in data points - both to the upside and downside and acknowledging the risk factors requires agility.

Healthy returns despite drawdowns

Investment before financial crisis would have rewarded investors with returns of 9.8% CAGR (Apr08-Dec21)

Despite several drawdowns of 15-20% every year, Rs. 1 cr invested in Apr01 would have become 15.2cr with a CAGR of 14% (As on Dec21)

Corrections are part of Equity Market!

Bottom-up Approach to be more rewarding

CY21 - A year of Poor Quality stocks. CY22 - Likely to be a Year of Good Quality stocks.
