# Investment Philosophy

## Protecting Capital - DSD Mechanism

### DIVERSIFICATION

Three important risks : Governance, Technology and Business cycle - can be reduced only by Diversification. We invest across market cap, sectors, and companies to reduce company/sector specific risk.

### STAGGERED APPROACH

We build the portfolio over a period of time.

### DISCIPLINED EXIT STRATEGY

We have a disciplined Exit strategy. We sell/reduce due to rebalancing of the portfolio, change in growth assumption of our portfolio company, expensive valuations.

# Investment Philosophy

## Creating Wealth - 3M Approach

01

### Market Size

Market size determines size of opportunity. We prefer companies which are targeting large market size to generate exponential returns.

### Market Share

We buy the companies which are leaders in their sector as they are best positioned to navigate upturn and downturn of the economy.

02

03

### Margin Of Safety

Price is what you pay. Value is what you get. We buy the companies which are available at reasonable valuations.
