# Agility Guides Our Exit Strategy

## We Exit When

1. There is a need to rebalance weights for risk management purposes
2. A company no longer meets our buy/hold criteria
3. A company no longer meets our valuation criteria
4. There is no longer a durable double digit return expectation for a company's stock
6. There is a more compelling investment opportunity to fund

# 18 years

**The average life span of company listed in the S&P 500**

The only constant is change. The average lifespan of a company listed on the S&P 500 has fallen from 90 years in 1935 to just 18 years today, highlighting how quickly leadership erodes without sustained competitiveness.

**We stay agile and active, continuously reassessing fundamentals, risks, and relevance, never letting our guard down.**
